Solutions.

Introduction

Market Problem Summary

- Need quick access to Slot Manager data and some Slot Manager functions when away from the office

Solution Beneficiaries

- Airline schedule planning and/or network planning department
- Airline operations department

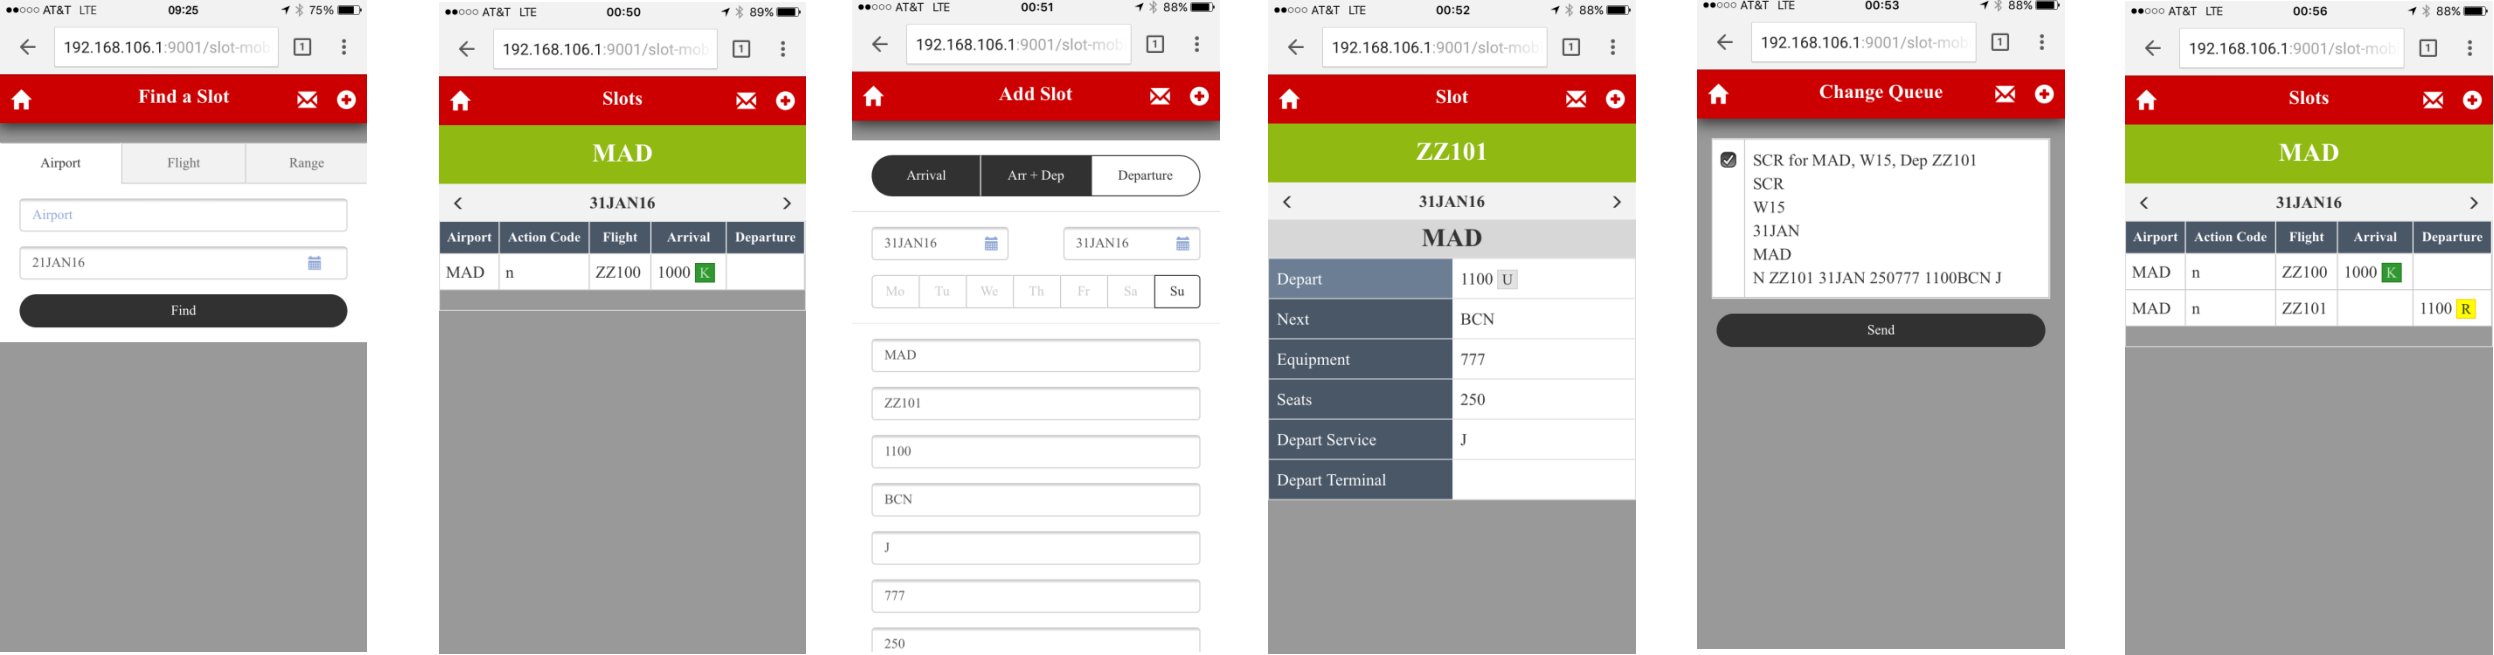

Fixing Slot Problems Quickly When Out Of The Office

- Slot experts at airlines often need to act quickly when away from the office:
 - Managing urgent operational slot issues
 - Taking advantage of slot opportunities that will not last long
- This need typically happens when:
 - Slot experts at slot conferences or industry meetings or on other business travel
 - Operations has urgent disruptions outside office hours
- Accessing Slot Manager remotely today requires:
 - Laptop
 - An internet connection to the server
- Slot experts outside the office need:
 - Fast remote access to a subset of Slot Manager capabilities and data
 - Using mobile devices with 4G/LTE or wireless connectivity

Slot Manager Mobile

- Remote access to Slot Manager IATA:
 - Using a mobile device connecting via 4G/LTE or wireless network
 - Using a remotely connected laptop or desktop
- Real time access to Slot Manager data:
 - Slot Manager Mobile accesses the same database as Slot Manager
 - Changes made using Slot Manager Mobile update the database in real time
 - E-mails sent to coordinators using the same messaging infrastructure
- Limited set of functions:
 - Simple but fast interface
 - Simplified view of slot data with option to see details
 - Only those Slot Manager functions which are needed the most

Sample iPhone Screen Shots

A scenario of having to quickly see what slots are held in Madrid on a certain date, then adding the data for the slot required, then sending the slot request to the airport slot coordinator.

Offering For Slot Manager IATA Customer Airlines

Who needs remote slot management capability?

- Airlines with complicated hubs requiring immediate solution to slot problems
- Airlines that want to quickly take advantage of opportunities as soon as they occur
- Airlines active at the slot conferences
- Airlines operating at expensive slot airports (e.g. LHR) where operations cannot make changes without involving slot experts
