Technical and Strictly Necessary Cookies

Name	Expiration	Purpose
apisession	Session	Essential to maintain state of the web application.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
sessionID	Session	Essential to maintain state of the web application.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
incap_ses_*	Session	This cookie allows the visitor's session to be maintained.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
visid_incap_*	1 year	This cookie is from the Content Delivery Network ("CDN") and Web Application Firewall ("WAF") system. It helps Sabre with reliability, security and the performance of the site.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
nlbi_*	Session	Improves performance of the web application. Web Application Load balancing cookie. To ensure requests by a client are sent to the same CDN server.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.

Analytical or Performance Cookies

Name	Expiration	Purpose
_gid	24 hours	This third-party Google Analytics cookie is used to distinguish users when collecting information about page visits.
		This cookie helps Sabre to identify application areas to be improved.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
_gat_UA-{#}	1 minute	# = 106819988-1

		This third-party Google Analytics cookie is used by Google to monitor requests rate toward their servers.
		This cookie helps Sabre to identify application areas to be improved.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
_ga	2 years	This third-party Google Analytics cookie is used to distinguish users when collecting information about page visits.
		This cookie helps Sabre to identify application areas to be improved.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
_dc_gtm_UA-{#}	1 minute	# = 106819988-1
		This third-party Google Tag Manager cookie is used by Google to monitor requests rate toward their servers.
		This cookie helps Sabre to identify application areas to be improved.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
PHPSESSID	Session	This cookie supports Sabre Hospitality Retailing Insights analytics.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
__utma	2 years from set/update	This cookie supports Sabre Hospitality Retailing Insights analytics.
		Used to distinguish users and sessions. The cookie is created when the javascript library executes and no existing __utma cookies exists. The cookie is updated every time data is sent to Google Analytics.
__utmt	10 minutes	This cookie supports Sabre Hospitality Retailing Insights analytics.
		Used to throttle request rate.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.

__utmb	30 mins from set/update	This cookie supports Sabre Hospitality Retailing Insights analytics.
		Used to determine new sessions/visits. The cookie is created when the javascript library executes and no existing __utmb cookies exists. The cookie is updated every time data is sent to Google Analytics.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
__utmc	Session	This cookie supports Sabre Hospitality Retailing Insights analytics.
		Not used in ga.js. Set for interoperability with urchin.js. Historically, this cookie operated in conjunction with the __utmb cookie to determine whether the user was in a new session/visit.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
__utmz	6 months from set/update	This cookie supports Sabre Hospitality Retailing Insights analytics.
		Stores the traffic source or campaign that explains how the user reached your site. The cookie is created when the javascript library executes and is updated every time data is sent to Google Analytics.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.
__utmv	2 years from set/update	This cookie supports Sabre Hospitality Retailing Insights analytics.
		Used to store visitor-level custom variable data. This cookie is created when a developer uses the _setCustomVar method with a visitor level custom variable. This cookie was also used for the deprecated _setVar method. The cookie is updated every time data is sent to Google Analytics.
		This cookie does not allow Sabre to identify user personally as no personal information or data is tracked.

Personalization or Functional Cookies

ame	Expiration	Purpose

shoppingCartId	90 days	Lets the application resume a shopping cart with stored product selection from a previous session.
_gaexp	Depends on the length of the experiment, but typically 90 days.	Google Optimize. Used to determine a user's inclusion in an experiment and the expiry of experiments a user has been included in.
_opt_awcid	24 hours	Google Optimize. Used for campaigns mapped to Google Ads Customer IDs.
_opt_awmid	24 hours	Google Optimize. Used for campaigns mapped to Google Ads Campaign IDs.
_opt_awgid	24 hours	Google Optimize. Used for campaigns mapped to Google Ads Ad Group IDs
_opt_awkid	24 hours	Google Optimize. Used for campaigns mapped to Google Ads Criterion IDs
_opt_utmc	24 hours	Google Optimize. Stores the last utm_campaign query parameter.
