

TECHNOLOGY THAT MOVES

OUR GLOBAL BUSINESS

Sabre is a leading technology solutions provider to global travel industry. Our technology and data-driven solutions help our airline, hotel and travel agency customers grow their businesses and transform the traveler experience. The scale, breadth and depth of our technology is unmatched and sustains a complex industry.

We provide an open and stable platform to deliver flexible, reliable and scalable solutions. Over the years, we have shaped and modernized the travel industry.

Headquartered in Southlake, Texas, Sabre employs nearly 10,000 people in approximately 65 countries around the world, and we serve our customers through cutting-edge technology developed in six facilities located across four continents.

TRAVEL NETWORK

A global business-to-business travel marketplace used by the world's travel suppliers. This includes approximately 420 airlines, 750,000 hotel properties, 260 tour operators, 52 rail carriers, 39 car rental providers and 17 cruise lines. They all use Sabre to promote, personalize and sell their products to travel management companies, corporate travel departments and approximately 425,000 travel agents around the world. We are also the leading technology partner to the fast-growing online travel agency (OTA) sector, with eight of the 10 largest OTAs globally relying on Sabre's unique expertise to increase conversions, optimize revenue and improve cost efficiency.

AIRLINE SOLUTIONS

Used by approximately 225 airlines including network carriers, hybrids and low cost carriers, primarily through Software as a Service (SaaS) and hosted models. We provide lower cost of ownership, flexibility and scalability as airlines grow. We power everything from reservations systems to crew scheduling and provide insights and tools. We boarded 585 million passengers in 2015, a 14.5 percent year-over-year increase.

HOSPITALITY SOLUTIONS

Provides distribution, operations and marketing solutions to the hotel industry in more than 32,000 properties around the world. Our integrated reservations systems, property management system, distribution and marketing services help hotels increase revenues, identify savings and improve customer service. We also provide critical data analytics capabilities to help our hospitality customers offer personalized and customized offerings. We are the partner of choice for about 45 percent of all hotel brand groups, and our platform hosts more hotel properties than the top five global hotel chains combined.

INNOVATIVE AND SCALABLE TECHNOLOGY

To drive innovation in travel, we make significant investments in technology to develop new products and functionality, including advanced algorithms, decision support, data analysis and other valuable intellectual property.
