

Interviewing Best Practices

Tips to help you on your journey through the interview process at Sabre.

Have a Comfortable Conversation

Go with the flow of conversation, forget about the standard question-and-answer format.

Know Your Stuff

Be prepared to speak to items on your resume, application, and/or linkedin. Save the job descriptions on roles you apply for.

Ask Questions

Don't be afraid to ask your interviewer questions about Sabre, the role, the team, etc. Have questions prepared prior to interviewing.

Dress to Impress

Even in a virtual setting, first impressions are crucial. Dress professionally and ensure no distractions in your environment.

Be a Good Listener

Listening is an active action, not a passive one.

Be Confident

Take a deep breath, believe in yourself, and have fun.
